

## Lotus: Bed for beauty centre

The Lotus electric bed is the must-have product for every beauty centre. The motorised electric mechanism allows you to set the positions of both back and leg cushions with ease, as well as the height of the structure, ensuring maximum comfort for both the customer and the technician. Try it once, and you will never go back. In addition, the two-column structure ensures extreme stability during procedures, while the comfortable padded couch - equipped with an inset removable cushion for the face - can be customized by choosing from a wide range of colours. The roll holder and height-adjustable armrests are optional.
